

For clear **simplicity** in **managing**
your **company** mobile phones

Corporate Telecom is the proven way to manage business mobile phones

Managing company mobile phones can be a thankless task, but Cortel is here to take the load of your company. We're committed to making the whole process, **more flexible, less expensive, less complicated.**

We are an independent provider of business mobile services dealing with all the major networks on your behalf.

Our highly trained professional team offers better value, better understanding of your needs to support your business throughout the duration of the contract.

Established in 1987, Corporate Telecom has enjoyed considerable growth supplying both mobile, VoIP and landline services to the business market space.

This includes regular reviews and contact to ensure your business is on the best solution for your business

Funded privately, Cortel's head office is in Shoreditch in London with offices also in Chelsea and Manchester

Cortel brings a sweet song to your communications infrastructure

We can save you up to 50% on your business mobile bills

By dealing with the big mobile networks we can consolidate all your users onto a single deal and tariff structure.

Which means they can talk to each other free of charge on most of our plans, manage usage and costs by groups and constantly improve the technology you use to communicate with your customers and suppliers.

You get the latest deals and you get to keep your numbers

Our influence with the major networks enables us to get you the best mobile tariffs for your business. If there isn't an existing tariff that's just right, we will negotiate one that is.

When you change tariffs, we will ensure you keep the same mobile numbers via your appointment project manager who will guide you through the whole process.

We're good people who aim make life easier for you

With Cortel you receive a defined support structure to accommodate your companies needs. A project manager to transfer your account saving you time with administration, organisation and paperwork.

An account manager to assist with day to day running of the account and a client care team who are available for your business for general enquires

We take care of all your current and future mobile needs.

As mobile communications and management gets more sophisticated, you need to know more than ever to keep up. That's why we pride ourselves on delivering the right advice first time.

We'll transform your mobile communications to suit your changing business needs. From taking advantage of new and emerging technologies to implementing mobile policy.

Are you frustrated with stiff contracts and tariffs?

Cortel has a proven track record in delivering quality of service

It's inexpensive - we charge you nothing for our 5 star service and save you up to 50%

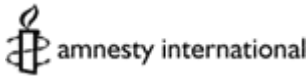

It's about your requirements - we'll get the best deal to suit your needs for the least amount of change

It's simple - we make the painful process of managing company mobiles incredibly straight forward.

It's happy - You can forget the hassle and misery of managing mobiles and laugh all the way to the bank

It's refreshing - we're real people in a private family run business who keep it simple and give you one point of contact

- Reviewing you ever changing needs constantly
- Supplying and servicing handsets
- Enabling email on the move
- Understanding the latest technology
- Making payments simple
- Providing technical support for your users

cortel

Corporate Telecom Group

It's so easy for your company to turn to Cortel

Four simple steps. That's all it takes to switch to Cortel and enjoy cost effective, hassle free mobile phone management. And it costs your business absolutely nothing.

Step 1

A business manager will arrange a 30 minute meeting with you at your convenience to discuss your requirements. The meeting can be held at your offices or if at your request, at one of Cortels offices.

Step 2

You send us (or give us at the meeting) 2 or 3 of your monthly company mobile phones bills. Or if they are currently expensed back to the business a rough three month expenditure.

Step 3

We will return to you a professional proposal detailing our savings, the service enhancements and any new supplied technology (if applicable), not to mention our recommendation and answers to any questions you may have.

Step 4

Once in agreement is reached, we'll take care of the paperwork. And all of your company mobile management headaches from then on. All you have to do is choose handsets!!

Want a high level service at a great price?

Typically unless you have hundreds and thousands of mobile handsets most operators will not provide you with a personal and business level of service . At Cortel, our operation is founded on our service as this is our livelihood hence the value of our strap line.

A solid reputation in UK business

- Do you have company mobiles?
- Would you like to save up to 50%?
- Would you like someone else to analyse, find and present the best option for your business?
- Do you want to work with nice people who understand your needs and charge you nothing?
- Would you like all of this by investing nothing more than a 30 minute meeting?

If the answer is yes, its time you turned to cortel. With us managing your company mobiles, life couldn't be easier.
